

Closing Press Release

Howling winds and lashing rain didn't dampen anyone's spirits at Bio360 Europe 2026 !

The **5500 participants** who braved the wintery conditions over the two days seem not to have been disappointed either, with strong positive feedback reported across the board from exhibitors, visitors,

speakers and partners alike... and we thank you all for your continued drive and commitment towards accelerating the BioTransition and for your support for Bio360 Europe.

Over 85% of those surveyed stated the event **lived up to or exceeded their expectations** and **90%** remarked upon and were **particularly satisfied with the quality of the discussions that they had.**

Bio360 Europe continues to be the stand-out international meeting point for the BioTransition, with over **400 exhibiting organisations** of which more than **40% are international, 200 high level speakers** and a total of **45 countries present.**

Africa Day

Bio360 Europe broke new ground this year with the launch of **Africa Day**, attracting strong engagement across a full day of conferences and a lively Africa Pavilion. The Pavilion buzzed with activity as participants explored new collaborations aimed at positioning bioenergy as a key component of Africa's future energy mix.

Next stop ? > Bio360 Africa 2026, 17-18 June, Johannesburg (SA) !

"The conferences were very well organized and covered a wide range of topics. I learned a lot and connected with many people in the industry."

- Géraldine Dambreville, GDA Environmental Consulting, Germany / Visitor

"We traveled from India especially to attend Bio360 Europe. Our visit was highly enjoyable and an immensely fruitful and beneficial experience for our team."

- Yogesh Rotliwala, Pacific School of Engineering, India / Visitor

"Just wanted to send a quick message to say kudos to the whole team for excellent conference organization, I found it really valuable both for learning and for networking."

- Amy Rhoades, Lost Glacier, France / Speaker

"I found Bio360 Europe 2026 to be an invaluable platform for advancing the global biochar agenda."

- Musa Msimango, Phambili energy, South Africa / Exhibitor

"An edition rich in exchanges and perspectives. Fruitful encounters. This edition allowed us to exchange ideas with many actors in the sector: equipment manufacturers, suppliers of innovative solutions, industrial partners and local authorities."

- Sebastien Despont, IDEX, France / Exhibitor

"Bio360 Expo is the heartbeat of Europe's bioeconomy community, and the 2026 edition in Nantes did not disappoint! A huge thank you to the BEES team for going above and beyond to help us overcome some last-minute hurdles. You made the difference. We look forward to returning!"

- Surya Guduru, Emvolon, USA / Exhibitor

"The event was exceptionally well organised, and the networking opportunities were truly on point for us. We've already been in follow-up conversations with several of the contacts we made."

- Ellie Georgiadis, Mote Hydrogen, USA / Speaker

"Very happy to have been able to participate in Bio360 Europe this year. Fruitful exchanges with customers and other exhibitors. See you next year!"

- Jean-Christophe Eberlein, Atlas Copco Group Industrial, France / Exhibitor

"It was a great event. I really enjoyed the fair. We got numerous new contacts"

- Timo Herbrand, PyroCCS, South Africa / Exhibitor

"As a German start-up, it was really interesting to be a part of such an event in France. We wanted to share our innovation and the people there were the right crowd for it. I appreciated the effort put in by the organization team. They were in constant communication with us trying to help us in every way we needed."

- Oscar Joya, Dosbio, Germany / Exhibitor

"The quality of interactions drastically improved compared to the last years. Networking offered a lot more interesting contacts than previously."

- Leopold Steinbeis, German Biochar Association, Germany / Exhibitor

"I participated in the trade show for the first time as an exhibitor. I was pleasantly surprised by the number of visitors (project leaders, industry players, and students). All of the discussions were very enriching, and I had a very positive experience. I can't wait to participate in the 2027 edition!"

- Jean-Marc Bocandé, Nevezus Innovation, France / Exhibitor
