

DINGX

A large, stylized white 'X' logo is positioned in the bottom left corner of the page. The 'X' is composed of two thick, slightly slanted strokes that intersect in the center. The background of the entire page is a solid light blue color, with a thin dark blue horizontal line separating the top white section from the rest of the page.

Ding.X is the software that technical teams love: Manage equipment, keep an eye on maintenance, keep processes under control.

Via app and on the web.

Ding.X - A solution for many industries.

Ding.X was developed to offer small and medium-sized companies from a wide range of industries a flexible yet robust software solution.

[Discover industries](#)

A central platform that is versatile and can be adapted precisely to your requirements.

Ding.X combines standard features like task and resource management with sector-specific modules for industries such as biogas, municipalities, and manufacturing.

Developed by the NORTH-TEC Group in 2015 for our own use, Ding.X is now offered as Software as a Service. Companies across various sectors benefit from a solution built on real-world needs—proven, flexible, and continuously evolving.

Designed for small and medium-sized businesses, Ding.X is flexible, customizable, and easy to integrate—no matter the industry.

- X Grows with your requirements
- X Industry-specific application
