A Global Presence

With more than **165** active members and a network of more than **5,500** professionals from the industry, BiogasWorld offers a global outreach to project developers and technology suppliers.

Most Popular Website Category Searches in 2022

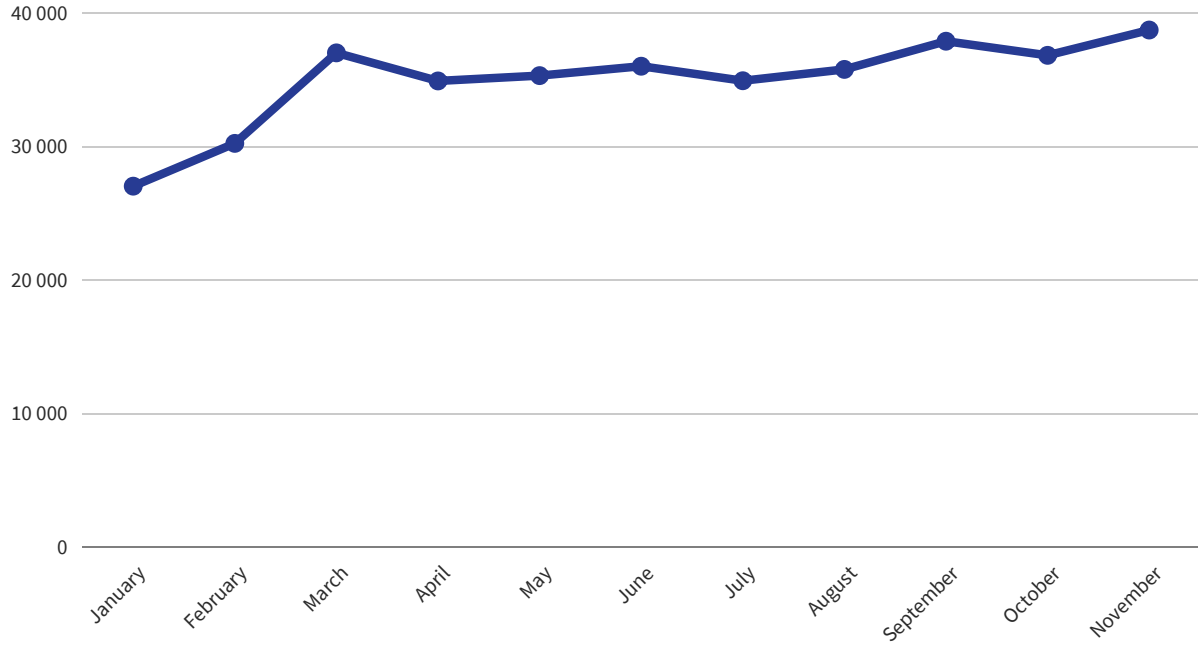

Who are BiogasWorld members?

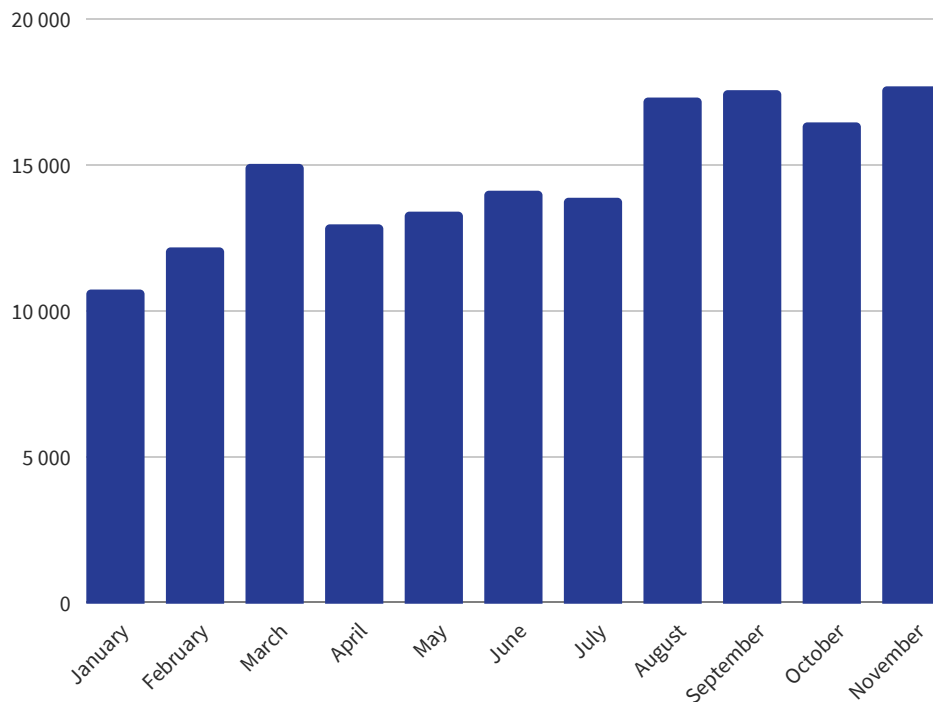

- Project developers
- Engineering firms
- Biogas suppliers
- Biogas upgrading technology providers
- Digester tanks providers
- Instrumentation and controls
- Pumps and mixing providers
- WWTP operators
- Associations
- Governments and municipalities
- Laboratory services
- Construction services
- Waste management services
- Financing services
- Training services
- Farmers

BiogasWorld Monthly Visits in 2022

BiogasWorld Monthly Active Users in 2022

Organized by BiogasWorld and its partners, the RNG Forum 2022, the first Canadian event to connect and mobilize the renewable natural gas (RNG) industry, was held on April 6 and 7, 2022 at the Centrexpo Cogeco in Drummondville, Canada.

Over two days of exhibition, conferences and insightful discussions, the event brought together local and international players involved in the industry to learn more about the success of this energy sector and its promising future, especially in Quebec.

For this very first edition in Drummondville, located at the heart of the province's agricultural, municipal, and industrial development, more than **500 participants** and **50 exhibiting companies** contributed to the event's success, including project developers, farmers, financiers, suppliers and consultants, engineering firms, associations, and government representatives.

500+ **50**

Participants and visitors

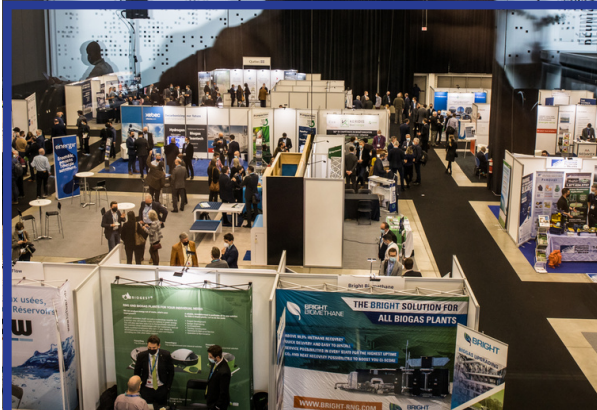

Exhibitors

Organizers were also honoured to welcome over 65 speakers from the industry, sharing their expertise and their perspective on renewable natural gas, circular economy, sustainability, and renewable energy.

RNG Forum 2022 in the news

- [*Gaz naturel renouvelable : la filière se réveille*](#) — Hélène Baril, La Presse
- [*Tour de table avec l'équipe et bulletin de nouvelles*](#) — Radio-Canada
- [*1er forum sur le gaz naturel renouvelable à Drummondville*](#) — Yannick Rochette, Bell Média

The next edition of the RNG Forum will be held in 2023 at the same venue, the Centrexpo Cogeco in Drummondville. Dates will be announced hopefully by summer. Industrial visits will also be added and offered to participants next year.
