

Since 2013 developing

COOL SOLUTIONS TO COOL THE PLANET

ARTi

From a PROJECT to a BIG SOLUTION

Since 2013, our work at ARTi has been dedicated to implement innovative, sustainable and renewable solutions. We manufacture and develop top-of-the line pyrolysis reactors for the production of biochar, activated carbon, and "green" carbon black.

**MANUFACTURE
REACTORS**

**PRODUCE
BIOCHAR**

**SEQUESTER
CO₂**

**RESEARCH AND
DEVELOPMENT**

**MISSION
WHO WE ARE**

ARTi is an international company that develops pyrolysis technologies, research and development projects, and carbon products through sustainable, healthy, and innovative processes.

Our mission is to demonstrate the value of biochar as a green technology able to sequester CO₂ from the atmosphere and bring life back into the soils. ARTi develops complete, automated, and modular biochar production systems.

**VISION
OUR CHALLENGE**

ARTi wants to be the world reference in biochar and pyrolysis technology.

Our reactors are produced through sustainable and friendly processes with the environment and the human being. To do it, our company is committed to guarantee high levels of efficiency in order to acquire the trust and commitment of all our stakeholders.
